

Advanced Ruby 3 Day

Ruby and Its Many Wonders

Welcome!

Renée Hendrickson

nird.us

A photograph of Renée Hendrickson, a woman with long brown hair, smiling broadly. She is wearing a blue top and a light-colored strap over her shoulder. The background is blurred with warm colors.

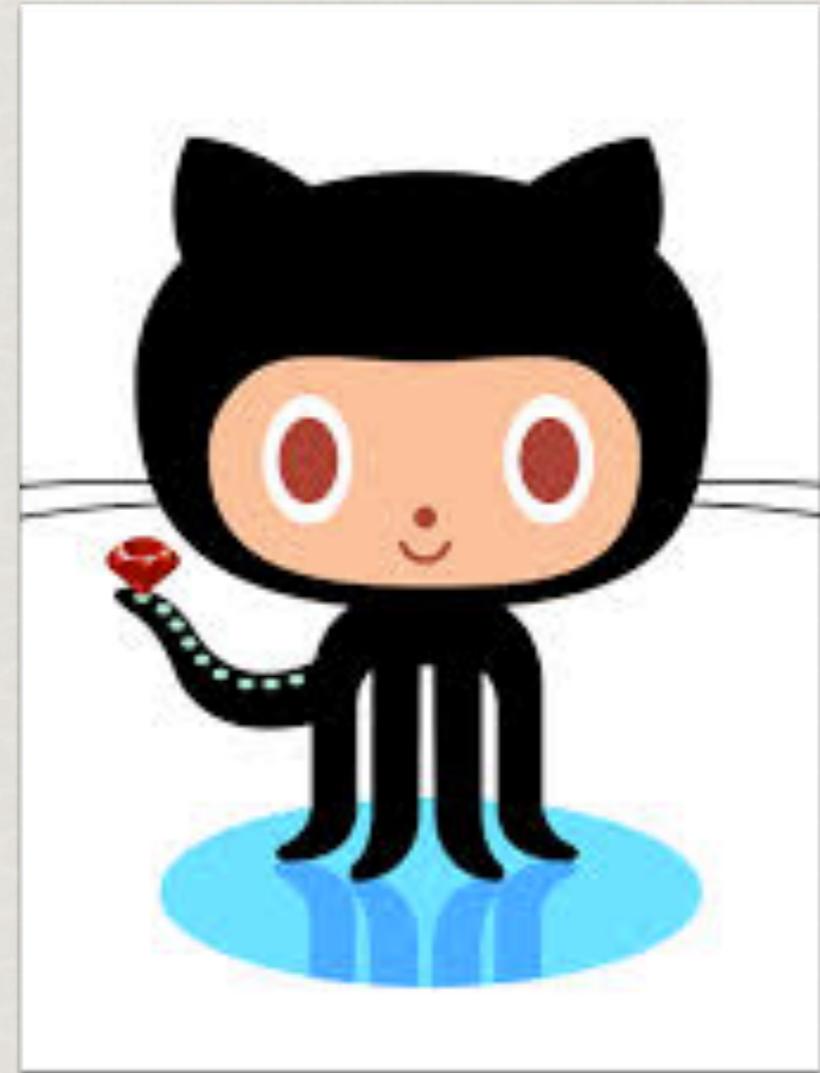

Hello!

- ◆ *Name*
- ◆ *Experience*
- ◆ *Class Goals*

Materials

- ◆ *Github*
- ◆ *nirds organization*
- ◆ *Advanced-Ruby-3-Day-Class*
- ◆ [https://github.com/nirds/
Advanced-Ruby-3-Day-
Class](https://github.com/nirds/Advanced-Ruby-3-Day-Class)

Schedule

- ◆ *9am - 10:30am Class*
- ◆ *10:30am - 10:45am Break*
- ◆ *10:45am - 12pm Class*
- ◆ *12pm - 1pm Lunch*
- ◆ *1pm - 2:30pm Class*
- ◆ *2:30pm - 2:45pm Break*
- ◆ *2:45pm - 4:45pm Class*
- ◆ *4:45pm - 5pm questions*

Class Structure

- ◆ *Lecture*
- ◆ *Demo*
- ◆ *Exercise*
- ◆ *questions!!*

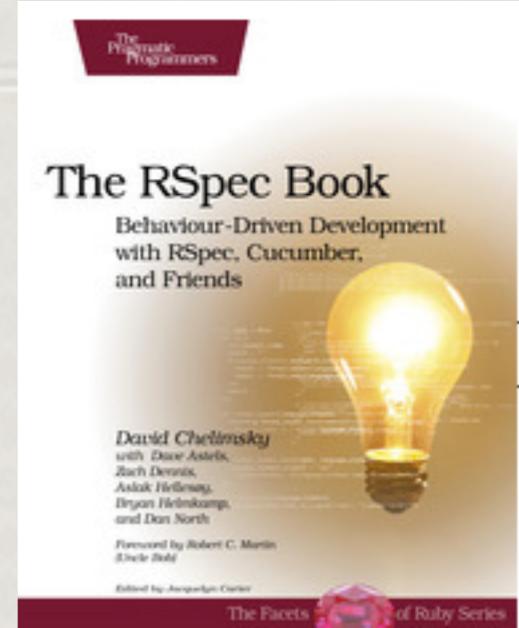

Topics

- ◆ *Rspec/ Minitest/ TDD*
- ◆ *Blocks*
- ◆ *Range Exercise*
- ◆ *Enumerable*
- ◆ *Objects*
- ◆ *Call Chain*
- ◆ *Method Missing*
- ◆ *Inheritance*
- ◆ *Modules*
- ◆ *OOP / SOILD*
- ◆ *Monkey Patching*
- ◆ *Refinements*
- ◆ *DSL / REPL*
- ◆ *MetaProgramming*
- ◆ *Concurrency and Multithreading*
- ◆ *Instrumentation*

RSpec

- ◆ *Code that Tests code!*
- ◆ *Test Driven Development*
- ◆ *Red-Green-Refactor*
- ◆ *Test First Teaching*
- ◆ *Ruby Domain Specific Language (DSL) for testing*

RSpec Specifics

- ◆ *Describe (What) / Context (When)*
- ◆ *It (Does)*
- ◆ *Should or Expect*
- ◆ *Matchers*
 - ◆ <http://www.rubydoc.info/gems/rspec-expectations/3.0.0/>
[RSpec/Matchers](#)
 - ◆ https://github.com/rspec/rspec-collection_matchers

MiniTest

- ◆ *Fast*
- ◆ *Pure - Ruby (less magic)*
- ◆ *Supports unit/spec syntax*

MiniTest Specifics

- ◆ *setup + methods*
- ◆ *before + describe + it*
- ◆ <https://github.com/seattlerb/minitest>
- ◆ <http://www.rubyinside.com/a-minitest-spec-tutorial-elegant-spec-style-testing-that-comes-with-ruby-5354.html>

Test Driven Development

- ◆ *Gather Requirements*
- ◆ *Start Simple*
- ◆ *Write a Test*
- ◆ *Simple Code to Make it Pass*
- ◆ *Write Another Test*
- ◆ *Only write code that is required by a test*
- ◆ *What test made you write that?*
- ◆ *Refactor only tested code.*
- ◆ *Add tests for existing code.*

Practice!

- ◆ *Pig Latin Translator*
- ◆ *Pig Latin Rules:*
 - ◆ *Consonants at the start, move to the end, add “ay”*
 - ◆ *ex: happy -> appyhay*
 - ◆ *Vowels at the start, just add “ay”*
 - ◆ *ex: apple -> appleay*
 - ◆ *“qu” at the start acts as one consonant sound*
 - ◆ *ex: quick -> ickquay*

Exercise

- ◆ *Pair up*
- ◆ *TDD Practice*
- ◆ *pig_latin_spec.rb As Reference.*

Regular Expression Help

- ◆ *Rubular!*
- ◆ <http://rubular.com/>

Other Practice Problems

- ◆ <http://codekata.com/>
- ◆ <http://katas.softwarecraftsmanship.org/>
- ◆ <http://rubyquiz.com/>
- ◆ <https://projecteuler.net/>
- ◆ <http://www.codequizzes.com/>

Ranges

- ◆ $I..5$
- ◆ $I...5$
- ◆ $a..z$
- ◆ $\text{OddNumber.new}(1).. \text{OddNumber.new}(5)$

Range Demo

- ◆ *TDD - Need a Range of Odd Numbers*
- ◆ *odd_number.rb*

Exercise!

- ◆ *TDD Even Number*
 - ◆ Write a passing rspec file called even_number_spec.rb that tests a class called EvenNumber.
 - ◆ The EvenNumber class should:
 - ◆ Only allow even numbers
 - ◆ Get the next even number
 - ◆ Compare even numbers (Comparable!)
 - ◆ Generate a range of even numbers

Blocks

- ◆ *A method with no name!*
- ◆ *Dynamic method definition*

Block Syntax

- ◆ *{}*
- ◆ *do*
- ◆ *<code>*
- ◆ *end*

Blocks: Calling and Checking

- ◆ *yield*
- ◆ *call*
- ◆ *block_given?*

Blocks with Parameters

- ◆ *yield(x)*
- ◆ *call(x)*
- ◆ $\{|x|\}$
- ◆ *do |x|*
- ◆ *<code>*
- ◆ *end*

Blocks Demo

- ◆ *Time My Code! (Think Performance Monitor)*
- ◆ *timer_spec.rb*

Blocks Exercise

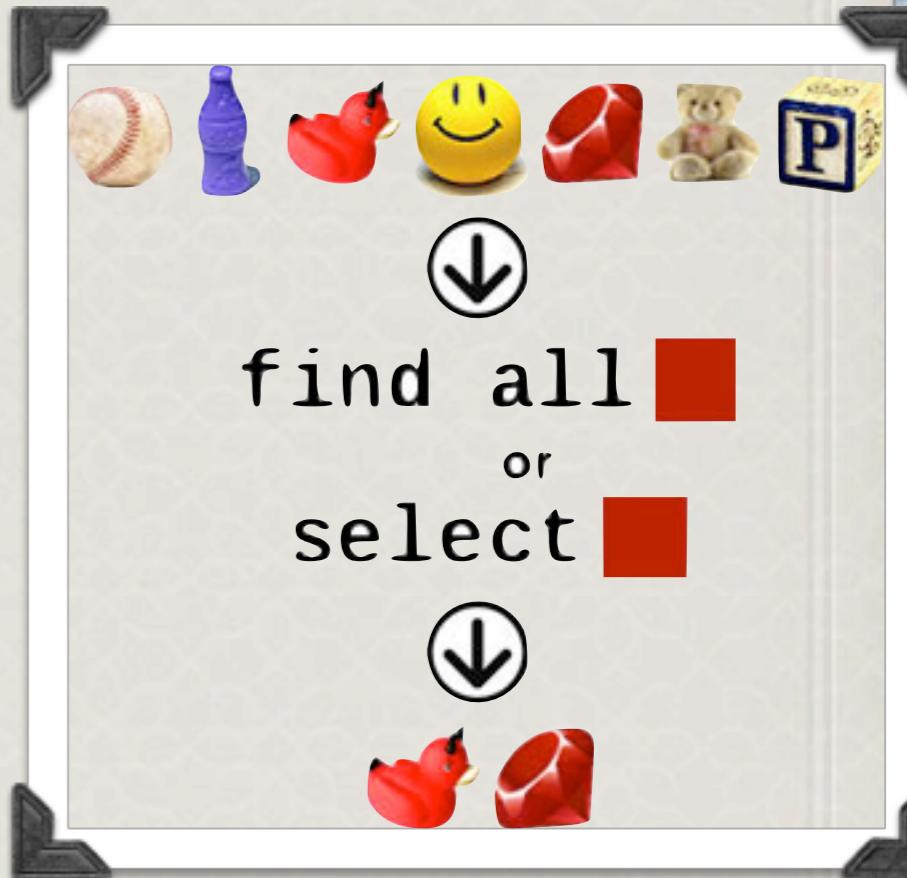

- ✿ *Make the worker_spec.rb file pass*

Blocks Usefulness

- ◆ *Rakefile.rb example*

Enumerable

- ◆ *Module for Collection Specific Actions*
- ◆ *Search*
- ◆ *Sort*
- ◆ *Iterate (Enumerate)*

Inject

total = 0

[1,2,3].each do |i|

total += i

[1,2,3].inject(:+)

end

=> 6

total

=> 6

Enumerable Demo

- ◆ *monsters.rb*
- ◆ *review Inject/Reduce*

Ruby.to_SQL

- ◆ `$monsters.find_all{|i| i[:name] == "Vampire"}`
*Select * from monsters where name = "Vampire";*
- ◆ `$monsters.map{|i| i[:name]}`
Select name from monsters;
- ◆ `$monsters.find_all{|i| i[:legs] == 2}.map{|i| i[:name]}`
Select name from monsters where legs = 2;

Enumerable Review

- ◆ *load 'monsters.rb'*
- ◆ *\$monsters*
- ◆ *How many monsters are nocturnal?*
- ◆ *What are the names of the monsters that are nocturnal?*
- ◆ *How many legs do all our monsters have?*
- ◆ *What are the 2 most common dangers and vulnerabilities of our monsters?*

Rebuild Enumerable!

- ◆ *Make the
fake_enumerable_spec.rb
pass!*
